

Vancouver Food Asset Map – Instructions for Using Offline on Smartphone

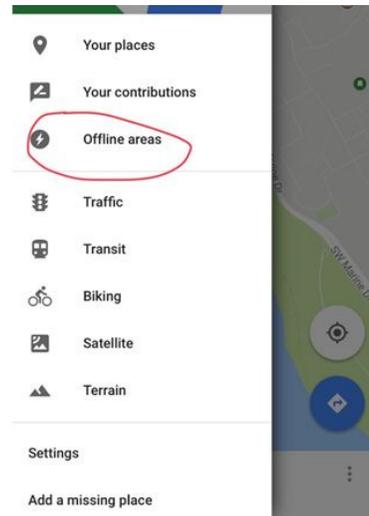

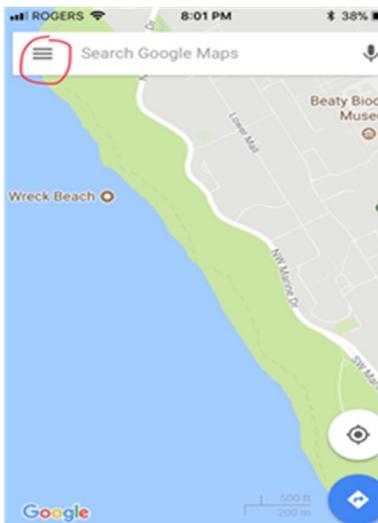

The first steps require Internet. If you have the Google Map app, skip to step 3.

1) Create a Google account that will give you access to all Google apps

2) Download Google Map app to your smartphone

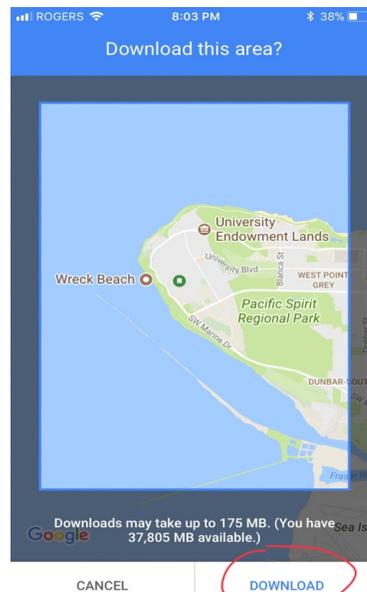

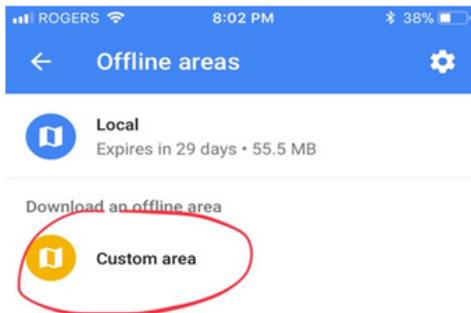

3) Open Google app and sign into your account by tapping on the menu icon

4) While you are in the menu area, tap “Offline areas”

5) Tap “Custom area”

6) A map will appear in the area you are located. Use two fingers to expand or reduce the map to the area you want. Tap “DOWNLOAD”

The remaining steps can be done offline without the Internet

7) Open Google Map app. Type the name or address of an organization, store or company you want to visit in the search box at the top of the screen.

Notes

- not all of the assets are available by searching the name
- hours and other information from the Food Asset Map are not available
- traffic, voice directions, walking and transit information are not available
- map will expire in 30 days
